REDUCING METHANE EMISSIONS ACROSS THE NATURAL GAS VALUE

PRINCIPLES AND PRACTICE - STEPHEN KRASHEN

the principles of natural pdf

On 22 November 2017, eight companies signed a set of Guiding Principles on Reducing Methane Emissions across the Natural Gas Value Chain. The Guiding Principles are: To continually reduce methane emissions; advance strong performance across gas value chains; improve accuracy of methane emissions data; advocate sound policies and regulations on methane emissions; and increase transparency.

Principles and parameters is a framework within generative linguistics in which the syntax of a natural language is described in accordance with general principles (i.e. abstract rules or grammars) and specific parameters (i.e. markers, switches) that for particular languages are either turned on or off. For example, the position of heads in phrases is determined by a parameter.
