the problem of evil pdf

The problem of evil is the question of how to reconcile the existence of evil with an omnipotent, omnibenevolent and omniscient God (see theism). An argument from evil claims that because evil exists, either God does not exist or does not have all three of those properties. Attempts to show the contrary have traditionally been discussed under the heading of theodicy.

Problem of evil - Wikipedia

Natural evil is evil for which "no non-divine agent can be held morally responsible for its occurrence." By contrast, moral evil is "caused by human activity." The existence of natural evil challenges belief in the omnibenevolence or the omnipotence of deities and the existence of deities including God.
